If you have questions for me about the class if you could put ‘683’ somewhere in the subject line, it will help me keep track of them and make getting answers work better.

While I do really want papers #1 and #2 read, I am only assigning reading duties for papers #3 and #4, in recognition that you are receiving this late and that you may have had trouble finding the other papers. Did any of you find them? If so please tell me and I will adjust things. For papers #3 and #4 – these are full design studies. They find the tasks, design the visualization and then assess it. While do pay attention to the full papers, pay particular attention to the tasks they find.

Here are your CPSC683 reading duties for Sept 28th. (also attached and also on the web)
Reading duties
Duty1: What did the author(s) think was the main point of the paper?
Duty2: What do you think is the main point of the paper?
Duty3: What practical use can you make of the contents of the paper (or your classmates)
Duty4: Keep the notes – ask questions of the people answering 1, 2, and 3 to be clear about what you write.

<tr>
<td>Paper #3</td>
<td>Katy Etemad</td>
<td>Carmen Hull</td>
<td>Nili Nazemzadeh</td>
</tr>
<tr>
<td>Paper #4</td>
<td>Angie Rout</td>
<td>Sarah Simons</td>
<td>Suryatapa Roy</td>
</tr>
</tbody>
</table>

How this works.
1. You all read all the assigned papers.
2. If you have duties 1, 2, or 3 for a particular paper, you write 1 paragraph answering the appropriate question associated with your duty and send it by September 20th to the person who has duty #4 for that paper. In class, when call on, you will briefly explain your answer to the question.
3. If you have duty #4, you collect your 3 paragraphs sent to you by the students with those duties. In class, during the discussion of this paper, you will take notes catching the important points. Before the next class (Sept. 27) you will send me a word version of the collected paragraphs and the discussion notes.
Any questions?
Sheelagh
